

## BELIEVE PROJECT

### STUDENT FEEDBACK PRESENTATION SURVEY

*To be completed by students in grades 6-8 after the presentation.*

We want to hear what you thought of the presentation! This will help us see what students like, what was learned and how we can make the BELIEVE Project even better! Your thoughts are very important to us but it is your choice whether you complete this survey. You do not need to write your name on this survey – all your answers are anonymous (no one will be able to match your answers to you). Thank you.

Please circle the number that best describes how much you agree with the sentence.
